Adullam, Discipleship Training – Assignment #1

This assignment involves setting aside regular time for prayer. Specifically, to consider who is in your life and begin praying for them. After all, how can one grow as a follower of Jesus without regular time in communion with Jesus? How can one expect to make disciples without praying for them? Therefore, take some time to reflect on each of the columns below and list names of people who you are in relationship with that would fit within that column (your best guess). Take time to write a note beside each person or family (if possible) to remind you how you are praying and begin praying for each person regularly. We invite you to begin praying for the Holy Spirit's leading to invest in each one – prayer is your first and most important step.
